

Birthday Treats Procedure

We often get questions about bringing birthday treats to school. This flyer explains our school guidelines for birthday treats. By setting guidelines, we are simply giving directions for any parents who want to send treats. Birthday treats are not expected. All of our classes will be following these guidelines.

- Any parent interested in bringing birthday treats needs to contact the classroom teacher BEFORE the day to make arrangements.

- Treats can be very simple. Birthday children will distribute their own treats. Examples might include a cookie, a cupcake or a package of fruit roll-ups. If you have questions, you could ask the classroom teacher for clarification. Please remember some of our classrooms are nut-free zones.

- Treats will be distributed to the class at lunchtime and eaten only in the lunchroom. Parents may choose to drop off the treats on the morning they will be distributed at lunch, or send them with the child. All of the students in the classroom can enjoy the birthday treat with their lunches.
