

Picking Up Students in the Parking Lot Directions and Map

For safety reasons, we have use a yellow sign in the parking lot to create a safe no-cars-move area for parents and students. Further directions are on the other side of this page.

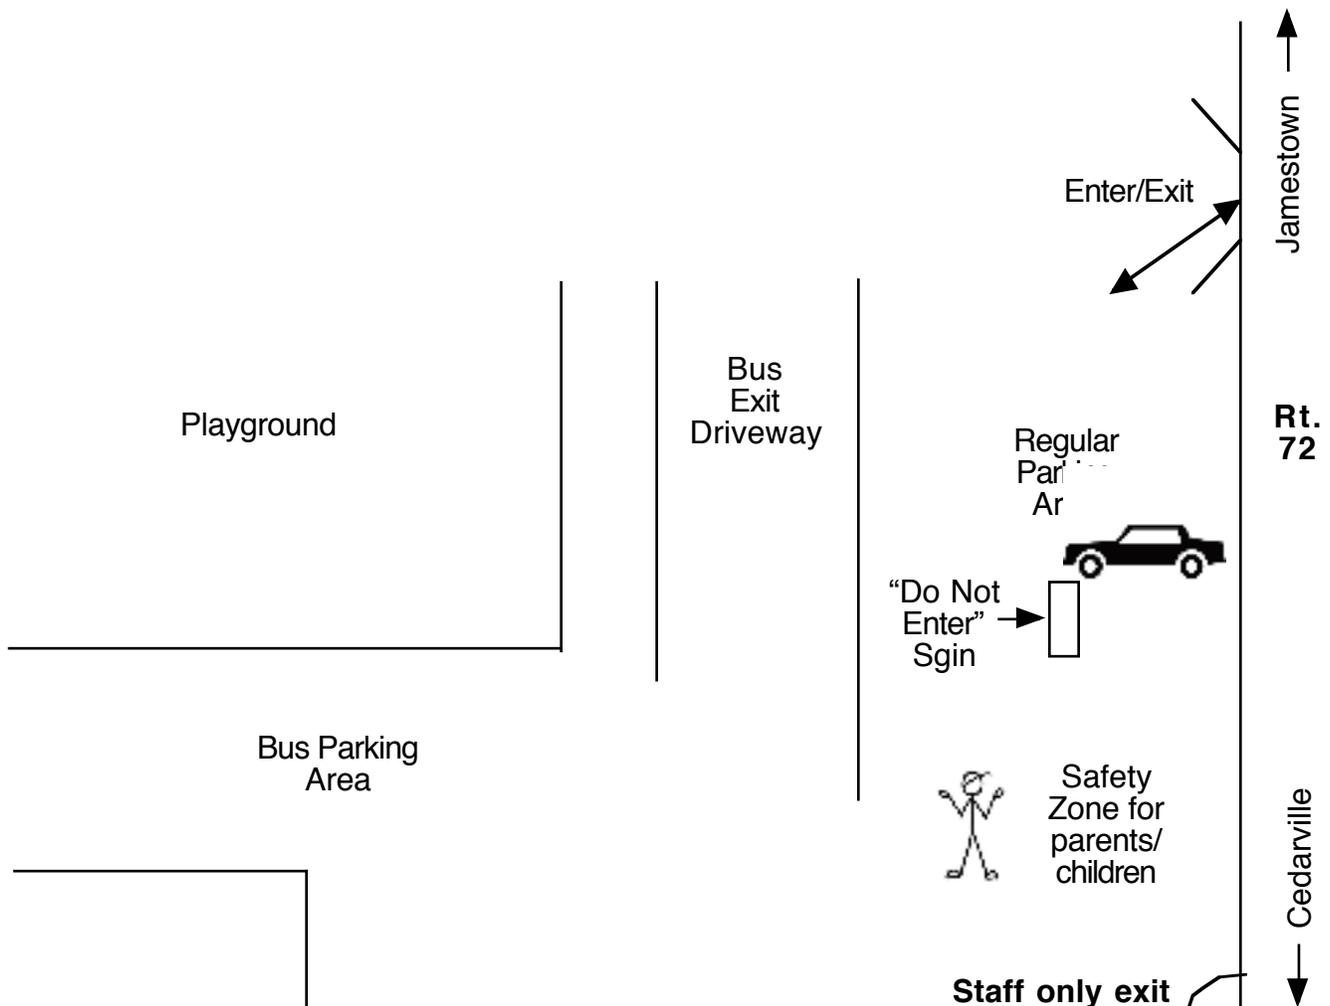

Some parents may decide to wait in their vehicles for their children. Anyone who does not wait in a vehicle should move to the area north of the “Do Not Enter” sign to wait in the safe area.

We are asking that cars be parked on the south side of the “Do Not Enter” sign. Any vehicle parking past the sign **must wait until ALL parents and students are out of the safety zone and the officer allows them to leave.**

Please remember that all vehicles must enter and exit the parking area by the large yellow gates at the very south end of the parking area. **No one is to park in front of the school.** Although some staff who leave at 2:30 will exit in the middle driveway at the end of their shift, **anyone picking up a student is to enter and exit at the yellow gates.**

Please get this information to anyone who might pick up your child.

Please refer to the map below if you have questions.

End of Day Student Pick-ups Parking Lot Guidelines

Please follow these guidelines about end-of-day Elementary School student pick-ups to ensure the safety of all of our students, parents, and staff.

We use a “Do Not Enter” yellow sign to mark off a safe area for parents and students to meet in the parking lot. This area contains the **first 20 parking spaces that are closest to the school** and north of the sign. Nearly all parents will park in the area south of the sign. Any people who have parked their vehicles south of the sign are able to carefully exit the parking lot once they have gotten their children.

The few parents who choose to park in those first 20 spaces must wait until the police officer, or the other adult that is filling in for him on any day, gives the signal that the area is clear and that cars are able to exit the parking lot. Cars in these spaces will be dismissed from the parking area before the buses are released from their loading area.

As always, the parking spaces in front of the school are for staff, and parking beside the front sidewalk is **ONLY** for preschool parents.

ALL DRIVERS, must always be alert and mindful of children and adults in the area.
